

Intended Use Form

Cytion provides cell lines for a broad range of applications — from basic research to commercial use. If your intended use involves fee-for-service work for clients, quality control testing (e.g., batch release, potency, or viral clearance), development or manufacturing of therapeutic products, use in diagnostic workflows, registrational studies, or any other potential commercial use, please complete the form below.

We understand that each project is unique. Whether you're in academia, biotech, or industry, our team is committed to identifying the most suitable solution for your goals and operational needs.

To streamline the supply of the Material, kindly fill out the following form and return it to info@cytion.com. Once we receive your completed form, a member of our team will contact you to discuss the terms of a tailored MTA.

Definition: “Material” means Original Material, Progeny and Unmodified Derivatives, as well as any of the foregoing Materials existing in Modifications.
